#### **ABSTRAK**

Pada 11 Maret 2020 WHO menyatakan *Severa acute respiratory syndrome coronavirus-2* (SARS-CoV-2) dan nama penyakitnya sebagai *Coronavirus disease 2019* (COVID-19) sebagai pandemi. Hingga akhir April 2020 terkonfirmasi 3.090.445 kasus global dengan angka kematian 217.769 serta 9771 kasus di Indonesia dengan angka kematian 784. Apotek Zentrum Kabupaten Bogor merupakan usaha dibidang kesehatan, yang tetap beroperasi di masa pandemi. Tujuan penelitian ini adalah untuk mengetahui dampak pandemi COVID-19 terhadap penjualan obat dan omzet di Apotek Zentrum Kabupaten Bogor. Jenis penelitian yang digunakan pada penelitian ini adalah *Cross Sectional*. Penelitian ini dilakukan di Apotek Zentrum Parung Kabupaten Bogor dan dilakukan selama 1 bulan pada bulan Juli 2020. Populasi dalam penelitian ini adalah seluruh data penjualan obat dan omzet mulai dari Juli 2019 sampai Juni 2020. Teknik pengambilan sampel dalam penelitian ini menggunakan teknik Total Sampling, dimana jumlah sampel sama dengan populasi. Tidak ada perbedaan signifikan pada penjualan obat berdasarkan kelas terapi, jenis obat, metode pembayaran, dan omzet sebelum pandemi dan selama pandemi di Apotek Zentrum Kabupaten Bogor.

### **ABSTRACT**

WHO officially declared the Severe acute respiratory syndrome coronavirus-2 (SARS-CoV-2) or Coronavirus disease 2019 (COVID-19) as a pandemic. By the end of April 2020, there have been 3,090,445 confirmed global cases with a mortality rate of 217,769, and 9771 cases were confirmed in Indonesia with a mortality rate of 784. Zentrum Pharmacy located in Bogor District is an enterprise related to health sector which kept operating during the pandemic. This study analyzed the impacts of COVID-19 pandemic on drug sales and turnover of Zentrum Pharmacy in Bogor District. This Cross Sectional study took place in Zentrum Parung Pharmacy, Bogor District for a month in July 2020. The data of this study were all data on drug sales and turnover from July 2019 to June 2020. Total Sampling technique was employed in this study. The results of the data analysis showed no significant difference was found in drug sales based on class of therapy, type of drug, payment methods, and total turnover before the pandemic and during the pandemic.

**Key Words:** Impacts of COVID-19 Pandemic, Pharmacy Business, Zentrum Pharmacy
