

ABSTRAK

Nama : Septia Putri Salsabilah
Program Studi : Farmasi
Judul : Skrining Kelengkapan Resep Pada Penebusan Obat di Apotek Mitra Ciracas Jakarta Timur Periode Juni – November 2022

Resep wajib ditulis dengan lengkap dan jelas guna menghindari adanya kesalahan pada fase *transcribing* (penerjemahan resep), *dispensing* (menyiapkan obat), serta mencegah terjadinya *medication error*. Penelitian ini bertujuan untuk mengetahui kelengkapan aspek administrasi, farmasetik, dan klinis resep pada penebusan di Apotek Mitra Ciracas Jakarta Timur Periode Juni – November 2022. Penelitian ini berupa penelitian deskriptif dengan pengumpulan data secara *retrospektif* yang didasarkan pada data resep di Apotek Mitra Ciracas Jakarta Timur. Metode pengambilan sampel dilakukan dengan metode *simple random sampling*, sampel yang didapatkan sebanyak 144 lembar resep. Hasil penelitian menunjukkan persentase kelengkapan pada aspek administrasi meliputi : nama pasien 98,61%, umur 64,58%, jenis kelamin 63,19%, berat badan 7,64%, nama dokter 91,67%, SIP dokter 37,5%, alamat dokter 48,61%, nomor telepon dokter 9,03%, paraf dokter 63,20%, tanggal penulisan resep 88,20%. Hasil kesesuaian farmasetik komponennya telah mencapai 100% meliputi nama obat, jumlah obat, dan cara penggunaan obat, sedangkan bentuk sediaan 97,22%, kekuatan sediaan 90,97%, dosis obat 90,97%. Secara klinis didapatkan resep yang berpotensi terjadinya interaksi obat 21,53%, dan persentase tepat dosis 94,44%. Hasil pengamatan ini diharapkan dapat meningkatkan pelayanan terhadap pasien, sehingga dapat tercapainya terapi pengobatan yang optimal.
